Dear Community Member,

Public schools in New Jersey are charged with the responsibility of providing its students with a thorough and efficient education. To this end, the White Township Board of Education recently participated in a feasibility study funded by New Jersey. The study's objective was to collect information and analyze various options for educating our PK - 12th grade students to determine if a more thorough and/or efficient option exists. All of the districts in the Belvidere cluster (Belvidere, Harmony, Hope, and White) participated in the study along with the Great Meadows Regional School District.

The feasibility study explores a number of options, and the study can be found in its entirety by clicking the link below:

[Belvidere Cluster Feasibility Study](#)

On Wednesday, April 9th, at 6:30 p.m. in the Belvidere High School auditorium, the consultants who completed the study will present its findings and answer questions. The presentation on April 9th will be recorded and posted to our website for individuals who cannot be in attendance. If you have questions after listening to the consultants present their findings, then please do not hesitate to contact me at thompson@whitetwpsd.org.

Sincerely,

William Thompson
